

## 4-Fluororesorcinol \*CAS#: 103068-41-3\*

Catalog Number: 4022

Unit Size: 1 g

### Product Details

---

Storage Conditions	Freeze (< -15 °C)
Expiration Date	12 months upon receiving

### Chemical Properties

---

Appearance	Solid
Molecular Weight	128.10
Soluble In	DMF
Chemical Structure	

### Spectral Properties

---

Excitation Wavelength	N/A
Emission Wavelength	N/A

### Applications

---

4-Fluororesorcinol is a precursor that can be used for preparing fluorescent dyes such as fluorescein, coumarin and resorufin analogs. It is the key precursor for preparing Oregon Green dyes.
