

**Product Name:** iFluor® 488 PSA™ Imaging Kit with Goat Anti-Human IgG

**Catalog Number:** 45183

| <i>Chemical Name</i>                                          | <i>CAS#</i> | <i>EINECS#</i> | <i>Appearance</i> | <i>Water Solubility</i> |
|---------------------------------------------------------------|-------------|----------------|-------------------|-------------------------|
| Component A: iFluor® 488 Styramide™ conjugate                 | N/A         | N/A            | Solid             | Moderate                |
| Component B: Styramide™ Reaction Buffer                       | N/A         | N/A            | Liquid            | Moderate                |
| Component C: DMSO                                             | 67-68-5     | N/A            | Liquid            | High                    |
| Component D: Secondary Antibody-HRP (Goat Anti-Human IgG-HRP) | N/A         | N/A            | Liquid            | Moderate                |
| Component E: Stabilized 3% Hydrogen peroxide                  | 7722-84-1   | N/A            | liquid            | high                    |

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifiers

Product name: iFluor® 488 PSA™ Imaging Kit with Goat Anti-Human IgG  
Product number: 45183

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the datasheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

#### 2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

#### 2.2 Label elements

Signal word: Not applicable  
Hazard statements: None  
Symbols/Pictograms: None  
Precautionary statements - prevention: Wash hands thoroughly after handling  
Precautionary statements - response: IF exposed concerned: Get medical advice/attention  
Precautionary statements - storage: None  
Precautionary statements - disposal: None

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

#### 2.4 Other information

Other hazards: None

### Section 3: Composition/information on ingredients

### 3.1 Substances

|                   |                                                       |
|-------------------|-------------------------------------------------------|
| Chemical name:    | iFluor® 488 PSA™ Imaging Kit with Goat Anti-Human IgG |
| CAS No.:          |                                                       |
| Molecular weight: |                                                       |
| Formula:          |                                                       |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                                     |                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice:                     | Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing.                                                                                                                                                                                                                                                                                           |
| Eye contact:                        | Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.                                                                                                                                                                          |
| Skin contact:                       | Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required.                |
| Inhalation:                         | Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. |
| Ingestion:                          | Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty of water afterward. Never give anything by mouth to an unconscious person. Consult a physician.                                                                                                                                                                                                                      |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                                                                                                                                                                                                                                                                         |

### 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

|                     |                        |
|---------------------|------------------------|
| Note to physicians: | Treat symptomatically. |
|---------------------|------------------------|

## Section 5: Firefighting measures

---

### 5.1 Suitable extinguishing media

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media:   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media: | No information available.                                                                               |

### 5.2 Specific hazards arising from the chemical

|                                             |                                                                                                                                                                                                                |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards arising from the chemical: | In the event of a fire and/or explosion, do not breathe fumes. May cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases and vapors. |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Hazardous combustion products:

Carbon oxides, sulfur oxides

### 5.3 Explosion data

Sensitivity to mechanical impact:

No information available.

Sensitivity to static discharge:

No information available.

### 5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

## Section 6: Accidental release measures

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions:

Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.

### 6.2 Environmental precautions

Environmental precautions:

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological Information.

### 6.3 Methods and material for containment and cleaning up

Methods for containment:

Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.

Methods for cleaning up:

Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

Advice on safe handling:

Avoid contact with skin, eyes, or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product. Use with local exhaust ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:

Keep the container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Keep containers tightly closed in a cool, well-ventilated place. Keep in properly labeled containers. May form explosive peroxides.

Incompatible materials:

None known based on information supplied.

## Section 8: Experimental controls/personal protection

---

### 8.1 Control parameters

Exposure guidelines:

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

## 8.2 Appropriate engineering controls

Engineering controls:

Showers, eyewash stations, ventilation systems

## 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection:

Tight sealing safety goggles. Face protection shield.

Skin and body protection:

Wear protective gloves and protective clothing.

Respiratory protection:

If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

General hygiene considerations:

When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

## Section 9: Physical and chemical properties

---

Physical state:

solid

Solubility in water:

Moderate

Appearance:

No information available

Odor/odor threshold:

No information available

pH:

No information available

Melting point/freezing point:

No information available

Boiling point:

No information available

Flashpoint:

No information available

Liquid density:

No information available

Evaporation rate:

No information available

Upper flammability limit:

No information available

Lower flammability limit:

No information available

Vapor pressure:

No information available

Vapor density:

No information available

Specific gravity:

No information available

Water solubility:

No information available

Solubility in other solvents:

No information available

Partition coefficient:

No information available

Autoignition temperature:

No information available

Decomposition temperature:

No information available

Viscosity:

No information available

Explosive properties:

No information available

Oxidizing properties:

No information available

## Section 10: Stability and reactivity

---

|                                     |                                              |
|-------------------------------------|----------------------------------------------|
| Reactivity:                         | No data available                            |
| Chemical stability:                 | May form explosive peroxides                 |
| Possibility of hazardous reactions: | None under normal processing                 |
| Hazardous polymerization:           | No information available                     |
| Conditions to avoid:                | Extremes of temperatures and direct sunlight |
| Incompatible materials:             | Strong oxidizing agents                      |
| Hazardous decomposition products:   | Carbon oxides                                |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                   |
|---------------|-------------------|
| Inhalation:   | No data available |
| Eye contact:  | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

### 11.2 Information on toxicological effects

|           |                          |
|-----------|--------------------------|
| Symptoms: | No information available |
|-----------|--------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------|
| Chronic toxicity: | Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. |
|-------------------|-----------------------------------------------------------------------------------------------------|

### 11.4 Numerical measures of toxicity - product information

|                         |                          |
|-------------------------|--------------------------|
| Unknown acute toxicity: | No information available |
|-------------------------|--------------------------|

## Section 12: Ecological information

---

|                                |                                                         |
|--------------------------------|---------------------------------------------------------|
| Ecotoxicity:                   | May cause long-lasting harmful effects to aquatic life. |
| Persistence and degradability: | No information available                                |
| Bioaccumulation:               | No information available                                |
| Mobility:                      | No information available                                |

## Section 13: Disposal consideration

---

|                         |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. |
| Contaminated packaging: | Do not reuse container                                                                              |
| Other information:      | Waste codes should be assigned by the user based on the application for which the product was used. |

## Section 14: Transport information

---

|       |               |
|-------|---------------|
| DOT:  | Not regulated |
| IMDG: | Not regulated |
| IATA: | Not regulated |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Not listed |
| Canada (DSL/NDL):                       | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |
| South Korea (KECL):                     | Not listed |
| China (IECSC):                          | Not listed |
| Japan (ENCS):                           | Not listed |
| Phillipines (PICCS):                    | Not listed |

## 15.2 US Federal Regulations

|                          |                                                                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| SARA 313:                | Not listed                                                                                                                            |
| SARA 311/312 components: | Not listed                                                                                                                            |
| CWA (Clean Water Act):   | This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR122.21 and 40CFR 122.42). |

## 15.3 US State Regulations

|                                       |                                                                                            |
|---------------------------------------|--------------------------------------------------------------------------------------------|
| California Proposition 65:            | Not listed                                                                                 |
| Massachusetts-RTK:                    | Not listed                                                                                 |
| New Jersey-RTK:                       | Not listed                                                                                 |
| Pennsylvania-RTK:                     | Not listed                                                                                 |
| U.S. State Right-To-Know Regulations: | This product does not contain any substances regulated by state right-to-know regulations. |

## Section 16: Other information

---

### 16.1 HMIS

|                      |   |
|----------------------|---|
| Health hazards:      | - |
| Flammability:        | - |
| Reactivity:          | - |
| Personal protection: | - |

### 16.2 NFPA

|                                   |   |
|-----------------------------------|---|
| Health hazards:                   | - |
| Flammability:                     | - |
| Stability:                        | - |
| Physical and chemical properties: | - |

### 16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

---

#### 1.1 Product identifiers

Product name: iFluor® 488 Styramide™ conjugate  
Product number: N/A

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the datasheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

---

#### 2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

#### 2.2 Label elements

Signal word: Not applicable  
Hazard statements: None  
Symbols/Pictograms: None  
Precautionary statements - prevention: Wash hands thoroughly after handling  
Precautionary statements - response: IF exposed concerned: Get medical advice/attention  
Precautionary statements - storage: None  
Precautionary statements - disposal: None

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

#### 2.4 Other information

Other hazards: None

### Section 3: Composition/information on ingredients

---

### 3.1 Substances

|                   |                                  |
|-------------------|----------------------------------|
| Chemical name:    | iFluor® 488 Styramide™ conjugate |
| CAS No.:          |                                  |
| Molecular weight: |                                  |
| Formula:          |                                  |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                                     |                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice:                     | Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing.                                                                                                                                                                                                                                                                                           |
| Eye contact:                        | Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.                                                                                                                                                                          |
| Skin contact:                       | Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required.                |
| Inhalation:                         | Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. |
| Ingestion:                          | Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty of water afterward. Never give anything by mouth to an unconscious person. Consult a physician.                                                                                                                                                                                                                      |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                                                                                                                                                                                                                                                                         |

### 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

|                     |                        |
|---------------------|------------------------|
| Note to physicians: | Treat symptomatically. |
|---------------------|------------------------|

## Section 5: Firefighting measures

---

### 5.1 Suitable extinguishing media

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media:   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media: | No information available.                                                                               |

### 5.2 Specific hazards arising from the chemical

|                                             |                                                                                                                                                                                                                |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards arising from the chemical: | In the event of a fire and/or explosion, do not breathe fumes. May cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases and vapors. |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Hazardous combustion products:

Carbon oxides, sulfur oxides

### 5.3 Explosion data

Sensitivity to mechanical impact:

No information available.

Sensitivity to static discharge:

No information available.

### 5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

## Section 6: Accidental release measures

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions:

Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.

### 6.2 Environmental precautions

Environmental precautions:

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological Information.

### 6.3 Methods and material for containment and cleaning up

Methods for containment:

Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.

Methods for cleaning up:

Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

Advice on safe handling:

Avoid contact with skin, eyes, or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product. Use with local exhaust ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:

Keep the container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Keep containers tightly closed in a cool, well-ventilated place. Keep in properly labeled containers. May form explosive peroxides.

Incompatible materials:

None known based on information supplied.

## Section 8: Experimental controls/personal protection

---

### 8.1 Control parameters

Exposure guidelines:

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

## 8.2 Appropriate engineering controls

Engineering controls:

Showers, eyewash stations, ventilation systems

## 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection:

Tight sealing safety goggles. Face protection shield.

Skin and body protection:

Wear protective gloves and protective clothing.

Respiratory protection:

If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

General hygiene considerations:

When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

## Section 9: Physical and chemical properties

---

Physical state:

Solid

Solubility in water:

Moderate

Appearance:

No information available

Odor/odor threshold:

No information available

pH:

No information available

Melting point/freezing point:

No information available

Boiling point:

No information available

Flashpoint:

No information available

Liquid density:

No information available

Evaporation rate:

No information available

Upper flammability limit:

No information available

Lower flammability limit:

No information available

Vapor pressure:

No information available

Vapor density:

No information available

Specific gravity:

No information available

Water solubility:

No information available

Solubility in other solvents:

No information available

Partition coefficient:

No information available

Autoignition temperature:

No information available

Decomposition temperature:

No information available

Viscosity:

No information available

Explosive properties:

No information available

Oxidizing properties:

No information available

## Section 10: Stability and reactivity

---

|                                     |                                              |
|-------------------------------------|----------------------------------------------|
| Reactivity:                         | No data available                            |
| Chemical stability:                 | May form explosive peroxides                 |
| Possibility of hazardous reactions: | None under normal processing                 |
| Hazardous polymerization:           | No information available                     |
| Conditions to avoid:                | Extremes of temperatures and direct sunlight |
| Incompatible materials:             | Strong oxidizing agents                      |
| Hazardous decomposition products:   | Carbon oxides                                |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                   |
|---------------|-------------------|
| Inhalation:   | No data available |
| Eye contact:  | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

### 11.2 Information on toxicological effects

|           |                          |
|-----------|--------------------------|
| Symptoms: | No information available |
|-----------|--------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------|
| Chronic toxicity: | Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. |
|-------------------|-----------------------------------------------------------------------------------------------------|

### 11.4 Numerical measures of toxicity - product information

|                         |                          |
|-------------------------|--------------------------|
| Unknown acute toxicity: | No information available |
|-------------------------|--------------------------|

## Section 12: Ecological information

---

|                                |                                                         |
|--------------------------------|---------------------------------------------------------|
| Ecotoxicity:                   | May cause long-lasting harmful effects to aquatic life. |
| Persistence and degradability: | No information available                                |
| Bioaccumulation:               | No information available                                |
| Mobility:                      | No information available                                |

## Section 13: Disposal consideration

---

|                         |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. |
| Contaminated packaging: | Do not reuse container                                                                              |
| Other information:      | Waste codes should be assigned by the user based on the application for which the product was used. |

## Section 14: Transport information

---

|       |               |
|-------|---------------|
| DOT:  | Not regulated |
| IMDG: | Not regulated |
| IATA: | Not regulated |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Not listed |
| Canada (DSL/NDL):                       | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |
| South Korea (KECL):                     | Not listed |
| China (IECSC):                          | Not listed |
| Japan (ENCS):                           | Not listed |
| Phillipines (PICCS):                    | Not listed |

## 15.2 US Federal Regulations

|                          |                                                                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| SARA 313:                | Not listed                                                                                                                            |
| SARA 311/312 components: | Not listed                                                                                                                            |
| CWA (Clean Water Act):   | This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR122.21 and 40CFR 122.42). |

## 15.3 US State Regulations

|                                       |                                                                                            |
|---------------------------------------|--------------------------------------------------------------------------------------------|
| California Proposition 65:            | Not listed                                                                                 |
| Massachusetts-RTK:                    | Not listed                                                                                 |
| New Jersey-RTK:                       | Not listed                                                                                 |
| Pennsylvania-RTK:                     | Not listed                                                                                 |

## Section 16: Other information

---

### 16.1 HMIS

|                      |   |
|----------------------|---|
| Health hazards:      | - |
| Flammability:        | - |
| Reactivity:          | - |
| Personal protection: | - |

### 16.2 NFPA

|                                   |   |
|-----------------------------------|---|
| Health hazards:                   | - |
| Flammability:                     | - |
| Stability:                        | - |
| Physical and chemical properties: | - |

### 16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

---

#### 1.1 Product identifiers

Product name: Styramide™ Reaction Buffer  
Product number: N/A

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the datasheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

---

#### 2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

#### 2.2 Label elements

Signal word: Not applicable  
Hazard statements: None  
Symbols/Pictograms: None  
Precautionary statements - prevention: Wash hands thoroughly after handling  
Precautionary statements - response: IF exposed concerned: Get medical advice/attention  
Precautionary statements - storage: None  
Precautionary statements - disposal: None

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

#### 2.4 Other information

Other hazards: None

### Section 3: Composition/information on ingredients

---

### 3.1 Substances

|                   |                            |
|-------------------|----------------------------|
| Chemical name:    | Styramide™ Reaction Buffer |
| CAS No.:          |                            |
| Molecular weight: |                            |
| Formula:          |                            |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                                     |                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice:                     | Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing.                                                                                                                                                                                                                                                                                           |
| Eye contact:                        | Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.                                                                                                                                                                          |
| Skin contact:                       | Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required.                |
| Inhalation:                         | Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. |
| Ingestion:                          | Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty of water afterward. Never give anything by mouth to an unconscious person. Consult a physician.                                                                                                                                                                                                                      |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                                                                                                                                                                                                                                                                         |

### 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

|                     |                        |
|---------------------|------------------------|
| Note to physicians: | Treat symptomatically. |
|---------------------|------------------------|

## Section 5: Firefighting measures

---

### 5.1 Suitable extinguishing media

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media:   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media: | No information available.                                                                               |

### 5.2 Specific hazards arising from the chemical

|                                             |                                                                                                                                                                                                                |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards arising from the chemical: | In the event of a fire and/or explosion, do not breathe fumes. May cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases and vapors. |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Hazardous combustion products:

Carbon oxides, sulfur oxides

### 5.3 Explosion data

Sensitivity to mechanical impact:

No information available.

Sensitivity to static discharge:

No information available.

### 5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

## Section 6: Accidental release measures

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions:

Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.

### 6.2 Environmental precautions

Environmental precautions:

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological Information.

### 6.3 Methods and material for containment and cleaning up

Methods for containment:

Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.

Methods for cleaning up:

Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

Advice on safe handling:

Avoid contact with skin, eyes, or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product. Use with local exhaust ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:

Keep the container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Keep containers tightly closed in a cool, well-ventilated place. Keep in properly labeled containers. May form explosive peroxides.

Incompatible materials:

None known based on information supplied.

## Section 8: Experimental controls/personal protection

---

### 8.1 Control parameters

Exposure guidelines:

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

## 8.2 Appropriate engineering controls

Engineering controls:

Showers, eyewash stations, ventilation systems

## 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection:

Tight sealing safety goggles. Face protection shield.

Skin and body protection:

Wear protective gloves and protective clothing.

Respiratory protection:

If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

General hygiene considerations:

When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

## Section 9: Physical and chemical properties

---

Physical state:

Liquid

Solubility in water:

Moderate

Appearance:

No information available

Odor/odor threshold:

No information available

pH:

No information available

Melting point/freezing point:

No information available

Boiling point:

No information available

Flashpoint:

No information available

Liquid density:

No information available

Evaporation rate:

No information available

Upper flammability limit:

No information available

Lower flammability limit:

No information available

Vapor pressure:

No information available

Vapor density:

No information available

Specific gravity:

No information available

Water solubility:

No information available

Solubility in other solvents:

No information available

Partition coefficient:

No information available

Autoignition temperature:

No information available

Decomposition temperature:

No information available

Viscosity:

No information available

Explosive properties:

No information available

Oxidizing properties:

No information available

## Section 10: Stability and reactivity

---

|                                     |                                              |
|-------------------------------------|----------------------------------------------|
| Reactivity:                         | No data available                            |
| Chemical stability:                 | May form explosive peroxides                 |
| Possibility of hazardous reactions: | None under normal processing                 |
| Hazardous polymerization:           | No information available                     |
| Conditions to avoid:                | Extremes of temperatures and direct sunlight |
| Incompatible materials:             | Strong oxidizing agents                      |
| Hazardous decomposition products:   | Carbon oxides                                |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                   |
|---------------|-------------------|
| Inhalation:   | No data available |
| Eye contact:  | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

### 11.2 Information on toxicological effects

|           |                          |
|-----------|--------------------------|
| Symptoms: | No information available |
|-----------|--------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------|
| Chronic toxicity: | Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. |
|-------------------|-----------------------------------------------------------------------------------------------------|

### 11.4 Numerical measures of toxicity - product information

|                         |                          |
|-------------------------|--------------------------|
| Unknown acute toxicity: | No information available |
|-------------------------|--------------------------|

## Section 12: Ecological information

---

|                                |                                                         |
|--------------------------------|---------------------------------------------------------|
| Ecotoxicity:                   | May cause long-lasting harmful effects to aquatic life. |
| Persistence and degradability: | No information available                                |
| Bioaccumulation:               | No information available                                |
| Mobility:                      | No information available                                |

## Section 13: Disposal consideration

---

|                         |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. |
| Contaminated packaging: | Do not reuse container                                                                              |
| Other information:      | Waste codes should be assigned by the user based on the application for which the product was used. |

## Section 14: Transport information

---

|       |               |
|-------|---------------|
| DOT:  | Not regulated |
| IMDG: | Not regulated |
| IATA: | Not regulated |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Not listed |
| Canada (DSL/NDL):                       | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |
| South Korea (KECL):                     | Not listed |
| China (IECSC):                          | Not listed |
| Japan (ENCS):                           | Not listed |
| Phillipines (PICCS):                    | Not listed |

## 15.2 US Federal Regulations

|                          |                                                                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| SARA 313:                | Not listed                                                                                                                            |
| SARA 311/312 components: | Not listed                                                                                                                            |
| CWA (Clean Water Act):   | This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR122.21 and 40CFR 122.42). |

## 15.3 US State Regulations

|                                       |                                                                                            |
|---------------------------------------|--------------------------------------------------------------------------------------------|
| California Proposition 65:            | Not listed                                                                                 |
| Massachusetts-RTK:                    | Not listed                                                                                 |

## Section 16: Other information

---

### 16.1 HMIS

|                      |   |
|----------------------|---|
| Health hazards:      | - |
| Flammability:        | - |
| Reactivity:          | - |
| Personal protection: | - |

### 16.2 NFPA

|                                   |   |
|-----------------------------------|---|
| Health hazards:                   | - |
| Flammability:                     | - |
| Stability:                        | - |
| Physical and chemical properties: | - |

### 16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifiers

Product name: DMSO  
Product number: N/A

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the datasheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

#### 2.1 Classification of the substance or mixture

|                                   |             |
|-----------------------------------|-------------|
| Flammable liquids                 | Category 4  |
| Skin corrosion/irritation         | Category 2  |
| Serious eye damage/eye irritation | Category 2A |

#### 2.2 Label elements

Signal word: Warning  
Hazard statements: H227 - Combustible liquid  
H315 - Causes skin irritation  
H319 - Causes serious eye irritation

Symbols/Pictograms:

|                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautionary statements - prevention: | <p>Keep away from heat, hot surface, sparks, open flames and other ignition sources. No smoking.</p> <p>Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.</p> <p>Wash hands... thoroughly after handling.</p> <p>Wash hands... thoroughly after handling. Do not touch eyes.</p>                                                                                                                                                                              |
| Precautionary statements - response:   | <p>In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.</p> <p>IF ON SKIN: wash with plenty of water.</p> <p>Specific treatment (see on this label).</p> <p>If skin irritation occurs: Get medical help.</p> <p>Take off contaminated clothing and wash it before reuse.</p> <p>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.</p> <p>If eye irritation persists: Get medical help.</p> |
| Precautionary statements - storage:    | Store in a well-ventilated place.                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Precautionary statements - disposal:   | Dispose of contents/container in accordance with local/regional/national/international regulation.                                                                                                                                                                                                                                                                                                                                                                                                        |

## 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

|                                          |      |
|------------------------------------------|------|
| Hazards not otherwise classified (HNOC): | None |
|------------------------------------------|------|

## 2.4 Other information

|                |      |
|----------------|------|
| Other hazards: | None |
|----------------|------|

## Section 3: Composition/information on ingredients

---

### 3.1 Substances

|                   |                                              |
|-------------------|----------------------------------------------|
| Chemical name:    | DMSO                                         |
| CAS No.:          | 67-68-5                                      |
| Molecular weight: |                                              |
| Formula:          | C <sub>2</sub> H <sub>6</sub> O <sub>S</sub> |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                 |                                                                                                                                                                                                                                                                                                                                                                             |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice: | Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing.                                                                                                                                                                                                                                                                            |
| Eye contact:    | Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.                                                                                                                                                           |
| Skin contact:   | Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required. |

|                                     |                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation:                         | Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. |
| Ingestion:                          | Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty of water afterward. Never give anything by mouth to an unconscious person. Consult a physician.                                                                                                                                                                                                                      |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                                                                                                                                                                                                                                                                         |

## 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

## 4.3 Indication of any immediate medical attention and special treatment needed

|                     |                        |
|---------------------|------------------------|
| Note to physicians: | Treat symptomatically. |
|---------------------|------------------------|

# Section 5: Firefighting measures

---

## 5.1 Suitable extinguishing media

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media:   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media: | No information available.                                                                               |

## 5.2 Specific hazards arising from the chemical

|                                             |                                                                                                                                                                                                                |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards arising from the chemical: | In the event of a fire and/or explosion, do not breathe fumes. May cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases and vapors. |
| Hazardous combustion products:              | Carbon oxides, sulfur oxides                                                                                                                                                                                   |

## 5.3 Explosion data

|                                   |                           |
|-----------------------------------|---------------------------|
| Sensitivity to mechanical impact: | No information available. |
| Sensitivity to static discharge:  | No information available. |

## 5.4 Protective equipment and precautions for firefighters

|                                                        |                                                                                                                                         |
|--------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Protective equipment and precautions for firefighters: | As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. |
|--------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|

# Section 6: Accidental release measures

---

## 6.1 Personal precautions, protective equipment, and emergency procedures

|                       |                                                                                                                                  |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions: | Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas. |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------|

## 6.2 Environmental precautions

|                            |                                                                                                                                                                                                             |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Environmental precautions: | Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological Information. |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 6.3 Methods and material for containment and cleaning up

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Methods for containment: | Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.                                                                                                                                                                                                                                                                                                                                                                      |
| Methods for cleaning up: | Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges. |

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

|                          |                                                                                                                                                                                                                                                                             |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling: | Avoid contact with skin, eyes, or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product. Use with local exhaust ventilation. |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### 7.2 Conditions for safe storage, including any incompatibilities

|                         |                                                                                                                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage conditions:     | Keep the container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Keep in properly labeled containers. May form explosive peroxides. Store under inert gas. Hygroscopic. Recommended storage temperature is < -15 °C. |
| Incompatible materials: | None known based on information supplied.                                                                                                                                                                                                                    |

## Section 8: Experimental controls/personal protection

---

### 8.1 Control parameters

|                      |                                                                                                                                                             |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure guidelines: | This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies. |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|

### 8.2 Appropriate engineering controls

|                       |                                                |
|-----------------------|------------------------------------------------|
| Engineering controls: | Showers, eyewash stations, ventilation systems |
|-----------------------|------------------------------------------------|

### 8.3 Individual protection measures, such as personal protective equipment

|                                 |                                                                                                                                                                                                                                                                                                                          |
|---------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection:            | Tight sealing safety goggles. Face protection shield.                                                                                                                                                                                                                                                                    |
| Skin and body protection:       | Wear protective gloves and protective clothing.                                                                                                                                                                                                                                                                          |
| Respiratory protection:         | If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations. |
| General hygiene considerations: | When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.                                                                   |

## Section 9: Physical and chemical properties

---

|                               |                                                          |
|-------------------------------|----------------------------------------------------------|
| Physical state:               | Liquid                                                   |
| Solubility in water:          | High                                                     |
| Appearance:                   | No information available                                 |
| Odor/odor threshold:          | Odorless                                                 |
| pH:                           | 8.5 (50/50 in water)                                     |
| Melting point/freezing point: | 18 °C (64 °F)                                            |
| Boiling point:                | 189 °C (372 °F)                                          |
| Flashpoint:                   | 89 °C (192 °F) Closed Cup, 95 °C (203 °F) Open Cup       |
| Liquid density:               | 1.1 g/mL                                                 |
| Evaporation rate:             | No information available                                 |
| Upper flammability limit:     | 28.5% (V)                                                |
| Lower flammability limit:     | 3.0% - 3.5% (V)                                          |
| Vapor pressure:               | 0.55 mbar (0.46 mmHg) at 20 °C (68 °F)                   |
| Vapor density:                | 2.70 - (Air = 1.0)                                       |
| Specific gravity:             | 1.1 at 20 °C (68 °F) (water = 1)                         |
| Water solubility:             | Completely miscible                                      |
| Solubility in other solvents: | No information available                                 |
| Partition coefficient:        | -2.03 (log Pow)                                          |
| Autoignition temperature:     | 300 - 302 °C (572 - 576 °F) at 1,013 hPa                 |
| Decomposition temperature:    | >190 °C (>374 °F)                                        |
| Viscosity:                    | 2.0 mPas or cP at 25 °C (77 °F)                          |
| Explosive properties:         | Product does not present an explosion hazard.            |
| Oxidizing properties:         | The substance or mixture is not classified as oxidizing. |

## Section 10: Stability and reactivity

---

|                                     |                                                                                                                                      |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity:                         | Hazardous Polymerization will not occur.                                                                                             |
| Chemical stability:                 | The product is chemically stable under standard ambient conditions (room temperature) .                                              |
| Possibility of hazardous reactions: | None under normal processing                                                                                                         |
| Hazardous polymerization:           | No information available                                                                                                             |
| Conditions to avoid:                | Avoid heat, flames, and sparks. Prolonged heating above 150°C (302°F) can cause rapid, exothermic decomposition.                     |
| Incompatible materials:             | Organic and inorganic acid chlorides, strong oxidizing agents, alkali metals, hydrobromic acid, acidic solutions of alkali bromides. |
| Hazardous decomposition products:   | Sulfur dioxide, formaldehyde, methyl mercaptan, dimethyl sulfide, dimethyl disulfide, and bis (methylthio) methane.                  |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                                                  |
|---------------|--------------------------------------------------|
| Inhalation:   | No data available                                |
| Eye contact:  | No data available                                |
| Skin contact: | Acute dermal toxicity (LD50): 40000 mg/kg [Rat]. |

|            |                                                 |
|------------|-------------------------------------------------|
| Ingestion: | Acute oral toxicity (LD50): 7920 mg/kg [Mouse]. |
|------------|-------------------------------------------------|

## 11.2 Information on toxicological effects

|           |                          |
|-----------|--------------------------|
| Symptoms: | No information available |
|-----------|--------------------------|

## 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------|
| Chronic toxicity: | Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. |
|-------------------|-----------------------------------------------------------------------------------------------------|

## 11.4 Numerical measures of toxicity - product information

|                         |                          |
|-------------------------|--------------------------|
| Unknown acute toxicity: | No information available |
|-------------------------|--------------------------|

## Section 12: Ecological information

---

|                                |                                                                                                                                            |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity:                   | Toxicity to fish LC50 – Pimephales promelas (Fathead minnow) – 34,000 mg/L-96h                                                             |
| Persistence and degradability: | Result: 31 % - According to the results of tests of biodegradability this product is not readily biodegradable. (OECD Test Guideline 301D) |
| Bioaccumulation:               | No information available                                                                                                                   |
| Mobility:                      | No information available                                                                                                                   |

## Section 13: Disposal consideration

---

|                         |                                                                                                                                                                                 |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. Do not allow product to reach ground water, water course, or sewage system. |
| Contaminated packaging: | Do not reuse container                                                                                                                                                          |
| Other information:      | Waste codes should be assigned by the user based on the application for which the product was used.                                                                             |

## Section 14: Transport information

---

|       |                                |
|-------|--------------------------------|
| DOT:  | Not a DOT controlled material. |
| IMDG: | Not regulated                  |
| IATA: | Not regulated                  |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Listed     |
| Canada (DSL/NDL):                       | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |
| South Korea (KECL):                     | Not listed |
| China (IECSC):                          | Not listed |
| Japan (ENCS):                           | Not listed |
| Phillipines (PICCS):                    | Not listed |

### 15.2 US Federal Regulations

|           |                                                                                                                                                                                   |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SARA 313: | This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313. |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

SARA 311/312 components:

Fire Hazard, Chronic Health Hazard

CWA (Clean Water Act):

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR122.21 and 40CFR 122.42).

### 15.3 US State Regulations

California Proposition 65:

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

Massachusetts-RTK:

No components are subject to the Massachusetts Right to Know Act.

New Jersey-RTK:

Dimethyl sulfoxide

Pennsylvania-RTK:

Dimethyl sulfoxide

U.S. State Right-To-Know Regulations:

This product does not contain any substances regulated by state right-to-know regulations.

## Section 16: Other information

---

### 16.1 HMIS

|                      |   |
|----------------------|---|
| Health hazards:      | - |
| Flammability:        | 2 |
| Reactivity:          | - |
| Personal protection: | - |

### 16.2 NFPA

|                                   |   |
|-----------------------------------|---|
| Health hazards:                   | - |
| Flammability:                     | 2 |
| Stability:                        | - |
| Physical and chemical properties: | - |

### 16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

---

#### 1.1 Product identifiers

Product name: Secondary Antibody-HRP (Goat Anti-Human IgG-HRP)  
Product number: N/A

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the datasheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

---

#### 2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

#### 2.2 Label elements

Signal word: Not applicable  
Hazard statements: None  
Symbols/Pictograms: None  
Precautionary statements - prevention: Wash hands thoroughly after handling  
Precautionary statements - response: IF exposed concerned: Get medical advice/attention  
Precautionary statements - storage: None  
Precautionary statements - disposal: None

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

#### 2.4 Other information

Other hazards: None

### Section 3: Composition/information on ingredients

---

### 3.1 Substances

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Chemical name:    | Secondary Antibody-HRP (Goat Anti-Human IgG-HRP) |
| CAS No.:          |                                                  |
| Molecular weight: |                                                  |
| Formula:          |                                                  |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                                     |                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice:                     | Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing.                                                                                                                                                                                                                                                                                           |
| Eye contact:                        | Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.                                                                                                                                                                          |
| Skin contact:                       | Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required.                |
| Inhalation:                         | Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. |
| Ingestion:                          | Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty of water afterward. Never give anything by mouth to an unconscious person. Consult a physician.                                                                                                                                                                                                                      |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                                                                                                                                                                                                                                                                         |

### 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

|                     |                        |
|---------------------|------------------------|
| Note to physicians: | Treat symptomatically. |
|---------------------|------------------------|

## Section 5: Firefighting measures

---

### 5.1 Suitable extinguishing media

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media:   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media: | No information available.                                                                               |

### 5.2 Specific hazards arising from the chemical

|                                             |                                                                                                                                                                                                                |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards arising from the chemical: | In the event of a fire and/or explosion, do not breathe fumes. May cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases and vapors. |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Hazardous combustion products:

Carbon oxides, sulfur oxides

### 5.3 Explosion data

Sensitivity to mechanical impact:

No information available.

Sensitivity to static discharge:

No information available.

### 5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

## Section 6: Accidental release measures

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions:

Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.

### 6.2 Environmental precautions

Environmental precautions:

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological Information.

### 6.3 Methods and material for containment and cleaning up

Methods for containment:

Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.

Methods for cleaning up:

Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

Advice on safe handling:

Avoid contact with skin, eyes, or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product. Use with local exhaust ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:

Keep the container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Keep containers tightly closed in a cool, well-ventilated place. Keep in properly labeled containers. May form explosive peroxides.

Incompatible materials:

None known based on information supplied.

## Section 8: Experimental controls/personal protection

---

### 8.1 Control parameters

Exposure guidelines:

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

## 8.2 Appropriate engineering controls

Engineering controls:

Showers, eyewash stations, ventilation systems

## 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection:

Tight sealing safety goggles. Face protection shield.

Skin and body protection:

Wear protective gloves and protective clothing.

Respiratory protection:

If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

General hygiene considerations:

When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

## Section 9: Physical and chemical properties

---

Physical state:

Liquid

Solubility in water:

Moderate

Appearance:

No information available

Odor/odor threshold:

No information available

pH:

No information available

Melting point/freezing point:

No information available

Boiling point:

No information available

Flashpoint:

No information available

Liquid density:

No information available

Evaporation rate:

No information available

Upper flammability limit:

No information available

Lower flammability limit:

No information available

Vapor pressure:

No information available

Vapor density:

No information available

Specific gravity:

No information available

Water solubility:

No information available

Solubility in other solvents:

No information available

Partition coefficient:

No information available

Autoignition temperature:

No information available

Decomposition temperature:

No information available

Viscosity:

No information available

Explosive properties:

No information available

Oxidizing properties:

No information available

## Section 10: Stability and reactivity

---

|                                     |                                              |
|-------------------------------------|----------------------------------------------|
| Reactivity:                         | No data available                            |
| Chemical stability:                 | May form explosive peroxides                 |
| Possibility of hazardous reactions: | None under normal processing                 |
| Hazardous polymerization:           | No information available                     |
| Conditions to avoid:                | Extremes of temperatures and direct sunlight |
| Incompatible materials:             | Strong oxidizing agents                      |
| Hazardous decomposition products:   | Carbon oxides                                |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                   |
|---------------|-------------------|
| Inhalation:   | No data available |
| Eye contact:  | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

### 11.2 Information on toxicological effects

|           |                          |
|-----------|--------------------------|
| Symptoms: | No information available |
|-----------|--------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------|
| Chronic toxicity: | Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. |
|-------------------|-----------------------------------------------------------------------------------------------------|

### 11.4 Numerical measures of toxicity - product information

|                         |                          |
|-------------------------|--------------------------|
| Unknown acute toxicity: | No information available |
|-------------------------|--------------------------|

## Section 12: Ecological information

---

|                                |                                                         |
|--------------------------------|---------------------------------------------------------|
| Ecotoxicity:                   | May cause long-lasting harmful effects to aquatic life. |
| Persistence and degradability: | No information available                                |
| Bioaccumulation:               | No information available                                |
| Mobility:                      | No information available                                |

## Section 13: Disposal consideration

---

|                         |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. |
| Contaminated packaging: | Do not reuse container                                                                              |
| Other information:      | Waste codes should be assigned by the user based on the application for which the product was used. |

## Section 14: Transport information

---

|       |               |
|-------|---------------|
| DOT:  | Not regulated |
| IMDG: | Not regulated |
| IATA: | Not regulated |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Not listed |
| Canada (DSL/NDL):                       | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |
| South Korea (KECL):                     | Not listed |
| China (IECSC):                          | Not listed |
| Japan (ENCS):                           | Not listed |
| Phillipines (PICCS):                    | Not listed |

## 15.2 US Federal Regulations

|                          |                                                                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| SARA 313:                | Not listed                                                                                                                            |

| CWA (Clean Water Act):   | This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR122.21 and 40CFR 122.42). |

## 15.3 US State Regulations

|                                       |                                                                                            |
|---------------------------------------|--------------------------------------------------------------------------------------------|
| California Proposition 65:            | Not listed                                                                                 |
| Massachusetts-RTK:                    | Not listed                                                                                 |
| New Jersey-RTK:                       | Not listed                                                                                 |
| Pennsylvania-RTK:                     | Not listed                                                                                 |
| U.S. State Right-To-Know Regulations: | This product does not contain any substances regulated by state right-to-know regulations. |

## Section 16: Other information

---

### 16.1 HMIS

|                      |   |
|----------------------|---|
| Health hazards:      | - |
| Flammability:        | - |
| Reactivity:          | - |
| Personal protection: | - |

### 16.2 NFPA

|                                   |   |
|-----------------------------------|---|
| Health hazards:                   | - |
| Flammability:                     | - |
| Stability:                        | - |
| Physical and chemical properties: | - |

### 16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifiers

Product name: Stabilized 3% Hydrogen peroxide  
Product number: N/A

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the datasheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

#### 2.1 Classification of the substance or mixture

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

#### 2.2 Label elements

Signal word: Not applicable  
Hazard statements: None  
Symbols/Pictograms: None  
Precautionary statements - prevention: Wash hands thoroughly after handling  
Precautionary statements - response: IF exposed concerned: Get medical advice/attention  
Precautionary statements - storage: None  
Precautionary statements - disposal: None

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): None

#### 2.4 Other information

Other hazards: None

### Section 3: Composition/information on ingredients

### 3.1 Substances

|                   |                                 |
|-------------------|---------------------------------|
| Chemical name:    | Stabilized 3% Hydrogen peroxide |
| CAS No.:          | 7722-84-1                       |
| Molecular weight: |                                 |
| Formula:          |                                 |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                                     |                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice:                     | Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on the skin, or on clothing.                                                                                                                                                                                                                                                                                           |
| Eye contact:                        | Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.                                                                                                                                                                          |
| Skin contact:                       | Consult a physician if necessary. Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash off immediately with soap and plenty of water. Immediate medical attention is not required.                |
| Inhalation:                         | Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. Avoid direct contact with skin. Use a barrier to give mouth-to-mouth resuscitation. Artificial respiration and/or oxygen may be necessary. Immediate medical attention is not required. Move to fresh air in case of accidental inhalation of vapors. If symptoms persist, call a physician. |
| Ingestion:                          | Do NOT induce vomiting. Rinse/clean mouth with water and drink plenty of water afterward. Never give anything by mouth to an unconscious person. Consult a physician.                                                                                                                                                                                                                      |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                                                                                                                                                                                                                                                                         |

### 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

|                     |                        |
|---------------------|------------------------|
| Note to physicians: | Treat symptomatically. |
|---------------------|------------------------|

## Section 5: Firefighting measures

---

### 5.1 Suitable extinguishing media

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media:   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media: | No information available.                                                                               |

### 5.2 Specific hazards arising from the chemical

|                                             |                                                                                                                                                                                                                |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards arising from the chemical: | In the event of a fire and/or explosion, do not breathe fumes. May cause sensitization by inhalation and skin contact. Thermal decomposition can lead to the release of irritating and toxic gases and vapors. |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Hazardous combustion products:

Carbon oxides, sulfur oxides

### 5.3 Explosion data

Sensitivity to mechanical impact:

No information available.

Sensitivity to static discharge:

No information available.

### 5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

## Section 6: Accidental release measures

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions:

Use personal protective equipment as required. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas.

### 6.2 Environmental precautions

Environmental precautions:

Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not flush into surface water or sanitary sewer system. See Section 12 for additional Ecological Information.

### 6.3 Methods and material for containment and cleaning up

Methods for containment:

Prevent further leakage or spillage if safe to do so. Cover powder spill with a plastic sheet or tarp to minimize spreading. Dike far ahead of liquid spill for later disposal.

Methods for cleaning up:

Use personal protective equipment as required. Cover powder spill with a plastic sheet or tarp to minimize spreading and keep the powder dry. Take up mechanically, placing in appropriate containers for disposal. Avoid creating dust. Clean contaminated surfaces thoroughly. Soak up with inert absorbent material. Dam up. Pick up and transfer to properly labeled containers. Sweep up and shovel into suitable containers for disposal. After cleaning, flush away traces with water. Take precautionary measures against static discharges.

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

Advice on safe handling:

Avoid contact with skin, eyes, or clothing. Use personal protective equipment as required. Wash contaminated clothing before reuse. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using this product. Use with local exhaust ventilation.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:

Keep the container tightly closed in a dry and well-ventilated place. Keep out of the reach of children. Keep containers tightly closed in a cool, well-ventilated place. Keep in properly labeled containers. May form explosive peroxides.

Incompatible materials:

None known based on information supplied.

## Section 8: Experimental controls/personal protection

---

### 8.1 Control parameters

Exposure guidelines:

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.

## 8.2 Appropriate engineering controls

Engineering controls:

Showers, eyewash stations, ventilation systems

## 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection:

Tight sealing safety goggles. Face protection shield.

Skin and body protection:

Wear protective gloves and protective clothing.

Respiratory protection:

If exposure limits are exceeded, or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

General hygiene considerations:

When using, do not eat, drink or smoke. Regular cleaning of equipment, work area, and clothing is recommended. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuff.

## Section 9: Physical and chemical properties

---

Physical state:

liquid

Solubility in water:

high

Appearance:

No information available

Odor/odor threshold:

No information available

pH:

No information available

Melting point/freezing point:

No information available

Boiling point:

No information available

Flashpoint:

No information available

Liquid density:

No information available

Evaporation rate:

No information available

Upper flammability limit:

No information available

Lower flammability limit:

No information available

Vapor pressure:

No information available

Vapor density:

No information available

Specific gravity:

No information available

Water solubility:

No information available

Solubility in other solvents:

No information available

Partition coefficient:

No information available

Autoignition temperature:

No information available

Decomposition temperature:

No information available

Viscosity:

No information available

Explosive properties:

No information available

Oxidizing properties:

No information available

## Section 10: Stability and reactivity

---

|                                     |                                              |
|-------------------------------------|----------------------------------------------|
| Reactivity:                         | No data available                            |
| Chemical stability:                 | May form explosive peroxides                 |
| Possibility of hazardous reactions: | None under normal processing                 |
| Hazardous polymerization:           | No information available                     |
| Conditions to avoid:                | Extremes of temperatures and direct sunlight |
| Incompatible materials:             | Strong oxidizing agents                      |
| Hazardous decomposition products:   | Carbon oxides                                |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                   |
|---------------|-------------------|
| Inhalation:   | No data available |
| Eye contact:  | No data available |
| Skin contact: | No data available |
| Ingestion:    | No data available |

### 11.2 Information on toxicological effects

|           |                          |
|-----------|--------------------------|
| Symptoms: | No information available |
|-----------|--------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------|
| Chronic toxicity: | Repeated contact may cause allergic reactions in very susceptible persons. Avoid repeated exposure. |
|-------------------|-----------------------------------------------------------------------------------------------------|

### 11.4 Numerical measures of toxicity - product information

|                         |                          |
|-------------------------|--------------------------|
| Unknown acute toxicity: | No information available |
|-------------------------|--------------------------|

## Section 12: Ecological information

---

|                                |                                                         |
|--------------------------------|---------------------------------------------------------|
| Ecotoxicity:                   | May cause long-lasting harmful effects to aquatic life. |
| Persistence and degradability: | No information available                                |
| Bioaccumulation:               | No information available                                |
| Mobility:                      | No information available                                |

## Section 13: Disposal consideration

---

|                         |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. |
| Contaminated packaging: | Do not reuse container                                                                              |
| Other information:      | Waste codes should be assigned by the user based on the application for which the product was used. |

## Section 14: Transport information

---

|       |               |
|-------|---------------|
| DOT:  | Not regulated |
| IMDG: | Not regulated |
| IATA: | Not regulated |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Not listed |
| Canada (DSL/NDL):                       | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |
| South Korea (KECL):                     | Not listed |
| China (IECSC):                          | Not listed |
| Japan (ENCS):                           | Not listed |
| Phillipines (PICCS):                    | Not listed |

## 15.2 US Federal Regulations

|                          |                                                                                                                                       |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| SARA 313:                | Not listed                                                                                                                            |
| SARA 311/312 components: | Not listed                                                                                                                            |
