

**Product Name:** Screen Quest™ Fluorimetric Long Chain Fatty Acid Uptake Assay Kit

**Catalog Number:** 36386

| <i>Chemical Name</i>            | <i>CAS#</i> | <i>EINECS#</i> | <i>Appearance</i> | <i>Water Solubility</i> |
|---------------------------------|-------------|----------------|-------------------|-------------------------|
| Component A: TF2-C16 Fatty Acid | N/A         | N/A            | Solid             | Moderate                |
| Component B: Assay Buffer       | N/A         | N/A            | Liquid            | High                    |
| Component C: DMSO               | 67-68-5     | N/A            | Liquid            | High                    |

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

---

#### 1.1 Product identifiers

Product name: Screen Quest™ Fluorimetric Long Chain Fatty Acid Uptake Assay Kit  
Product number: 36386

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the safety data sheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

---

#### 2.1 Classification of the substance or mixture

Not evaluated; GHS hazards have not been determined.

#### 2.2 Label elements

Signal word: Not available  
Hazard statements: Not available  
Symbols/Pictograms: Not available  
Precautionary statements - prevention: Not available  
Precautionary statements - response: Not available  
Precautionary statements - storage: Not available  
Precautionary statements - disposal: Not available

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Hazards not otherwise classified (HNOC): Not available

#### 2.4 Other information

Other hazards: Not available

### Section 3: Composition/information on ingredients

---

### 3.1 Substances

|                   |                                                                   |
|-------------------|-------------------------------------------------------------------|
| Chemical name:    | Screen Quest™ Fluorimetric Long Chain Fatty Acid Uptake Assay Kit |
| CAS number:       | Not available                                                     |
| Molecular weight: | Not applicable                                                    |
| Formula:          | Not available                                                     |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                                     |                                                                                                                                        |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| General advice:                     | If symptoms occur, seek medical advice/attention.                                                                                      |
| Eye contact:                        | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.                                     |
| Skin contact:                       | Rinse cautiously with water for several minutes. Consult a physician if necessary.                                                     |
| Inhalation:                         | Not expected to be an inhalation hazard under anticipated conditions of normal use of this material. Consult a physician if necessary. |
| Ingestion:                          | Not expected to present a significant ingestion hazard under anticipated conditions of normal use. Consult a physician if necessary.   |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                     |

### 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

|                     |                        |
|---------------------|------------------------|
| Note to physicians: | Treat symptomatically. |
|---------------------|------------------------|

## Section 5: Firefighting measures

---

### 5.1 Suitable extinguishing media

|                                 |                                                                                                         |
|---------------------------------|---------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media:   | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Unsuitable extinguishing media: | No information available.                                                                               |

### 5.2 Specific hazards arising from the chemical

|                                             |                           |
|---------------------------------------------|---------------------------|
| Specific hazards arising from the chemical: | No information available. |
| Hazardous combustion products:              | No information available. |

### 5.3 Explosion data

|                                   |                           |
|-----------------------------------|---------------------------|
| Sensitivity to mechanical impact: | No information available. |
| Sensitivity to static discharge:  | No information available. |

### 5.4 Protective equipment and precautions for firefighters

|                                                        |                                        |
|--------------------------------------------------------|----------------------------------------|
| Protective equipment and precautions for firefighters: | Standard procedure for chemical fires. |
|--------------------------------------------------------|----------------------------------------|

## Section 6: Accidental release measures

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

|                       |                                                                             |
|-----------------------|-----------------------------------------------------------------------------|
| Personal precautions: | Use appropriate personal protective equipment. Ensure adequate ventilation. |
|-----------------------|-----------------------------------------------------------------------------|

## 6.2 Environmental precautions

Environmental precautions: Avoid discharge into drains and waterways whenever possible.

## 6.3 Methods and material for containment and cleaning up

Methods for containment: Prevent further leakage or spillage if safe to do so.

Methods for cleaning up: Take up mechanically, placing in appropriate containers for disposal.

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

Advice on safe handling: Use personal protective equipment as required. No special handling advices are necessary.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions: Keep in a properly-labeled container. Keep the container tightly closed in a cool, dry and well-ventilated place.

Incompatible materials: No information available.

## Section 8: Exposure controls/personal protection

---

### 8.1 Control parameters

Exposure guidelines: No information available.

### 8.2 Appropriate engineering controls

Engineering controls: Ensure adequate ventilation, especially in confined areas.

### 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection: Tight sealing safety goggles.

Skin and body protection: Wear protective gloves and clothing.

Respiratory protection: In case of insufficient ventilation wear suitable respiratory equipment.

General hygiene considerations: When using, do not eat, drink or smoke. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuffs.

## Section 9: Physical and chemical properties

---

|                               |                           |
|-------------------------------|---------------------------|
| Physical state:               | Solid                     |
| Solubility in water:          | Moderate                  |
| Appearance:                   | No information available. |
| Odor/odor threshold:          | No information available. |
| pH:                           | No information available. |
| Melting point/freezing point: | No information available. |
| Boiling point:                | No information available. |
| Flashpoint:                   | No information available. |
| Liquid density:               | No information available. |
| Evaporation rate:             | No information available. |
| Upper flammability limit:     | No information available. |
| Lower flammability limit:     | No information available. |
| Vapor pressure:               | No information available. |
| Vapor density:                | No information available. |

|                               |                           |
|-------------------------------|---------------------------|
| Specific gravity:             | No information available. |
| Water solubility:             | No information available. |
| Solubility in other solvents: | No information available. |
| Partition coefficient:        | No information available. |
| Autoignition temperature:     | No information available. |
| Decomposition temperature:    | No information available. |
| Viscosity:                    | No information available. |
| Explosive properties:         | No information available. |
| Oxidizing properties:         | No information available. |

## Section 10: Stability and reactivity

---

|                                     |                                                             |
|-------------------------------------|-------------------------------------------------------------|
| Reactivity:                         | None known.                                                 |
| Chemical stability:                 | Stable under normal conditions.                             |
| Possibility of hazardous reactions: | Hazardous reaction has not been reported.                   |
| Hazardous polymerization:           | No information available.                                   |
| Conditions to avoid:                | No information available.                                   |
| Incompatible materials:             | No dangerous reaction known under conditions of normal use. |
| Hazardous decomposition products:   | No information available.                                   |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                           |
|---------------|---------------------------|
| Inhalation:   | No information available. |
| Eye contact:  | No information available. |
| Skin contact: | No information available. |
| Ingestion:    | No information available. |

### 11.2 Information on toxicological effects

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                           |
|-------------------|---------------------------|
| Chronic toxicity: | No information available. |
|-------------------|---------------------------|

### 11.4 Numerical measures of toxicity - product information

|                         |                           |
|-------------------------|---------------------------|
| Unknown acute toxicity: | No information available. |
|-------------------------|---------------------------|

## Section 12: Ecological information

---

|                                |                           |
|--------------------------------|---------------------------|
| Ecotoxicity:                   | No information available. |
| Persistence and degradability: | No information available. |
| Bioaccumulation:               | No information available. |
| Mobility:                      | No information available. |

## Section 13: Disposal consideration

---

|                         |                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. |
| Contaminated packaging: | Do not reuse container.                                                                             |

|                    |      |
|--------------------|------|
| Other information: | None |
|--------------------|------|

## Section 14: Transport information

---

|       |               |
|-------|---------------|
| DOT:  | Not regulated |
| IMDG: | Not regulated |
| IATA: | Not regulated |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Not listed |
| Canada (DSL/NDSL):                      | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |
| South Korea (KECL):                     | Not listed |
| China (IECSC):                          | Not listed |
| Japan (ENCS):                           | Not listed |
| Phillipines (PICCS):                    | Not listed |

### 15.2 US Federal Regulations

|                          |                           |
|--------------------------|---------------------------|
| SARA 313:                | Not listed                |
| SARA 311/312 components: | Not listed                |
| CWA (Clean Water Act):   | No information available. |

### 15.3 US State Regulations

|                                       |                           |
|---------------------------------------|---------------------------|
| California Proposition 65:            | Not listed                |
| Massachusetts-RTK:                    | Not listed                |
| New Jersey-RTK:                       | Not listed                |
| Pennsylvania-RTK:                     | Not listed                |
| U.S. State Right-To-Know Regulations: | No information available. |

## Section 16: Other information

---

### 16.1 HMIS

|                      |                |
|----------------------|----------------|
| Health hazards:      | Not determined |
| Flammability:        | Not determined |
| Reactivity:          | Not determined |
| Personal protection: | Not determined |

### 16.2 NFPA

|                                   |                |
|-----------------------------------|----------------|
| Health hazards:                   | Not determined |
| Flammability:                     | Not determined |
| Stability:                        | Not determined |
| Physical and chemical properties: | Not determined |

### 16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.

## Safety Data Sheet

### Section 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifiers

Product name: DMSO  
Product number: 36386

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: For research use only. Not intended for diagnostic or therapeutic use.

#### 1.3 Details of the supplier of the safety data sheet

Company: AAT Bioquest, Inc.  
Address: 5775 W Las Positas Blvd, Pleasanton, CA 94588  
Telephone: (408)-733-1055  
Fax: (408)-733-1304  
Email: [info@aatbio.com](mailto:info@aatbio.com)

#### 1.4 Emergency telephone number

Chemtrec (Within USA): 1-(800)-424-9300  
Chemtrec (Outside USA): 1-(703)-527-3887

### Section 2: Hazard identifications

#### 2.1 Classification of the substance or mixture

|                                   |             |
|-----------------------------------|-------------|
| Flammable liquids                 | Category 4  |
| Skin corrosion/irritation         | Category 2  |
| Serious eye damage/eye irritation | Category 2A |

#### 2.2 Label elements

Signal word: Warning  
Hazard statements: H227 - Combustible liquid  
H315 - Causes skin irritation  
H319 - Causes serious eye irritation

Symbols/Pictograms:

|                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautionary statements - prevention: | <p>Keep away from heat, hot surface, sparks, open flames and other ignition sources. No smoking.</p> <p>Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.</p> <p>Wash hands... thoroughly after handling.</p> <p>Wash hands... thoroughly after handling. Do not touch eyes.</p>                                                                                                                                                                              |
| Precautionary statements - response:   | <p>In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.</p> <p>IF ON SKIN: wash with plenty of water.</p> <p>Specific treatment (see on this label).</p> <p>If skin irritation occurs: Get medical help.</p> <p>Take off contaminated clothing and wash it before reuse.</p> <p>IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.</p> <p>If eye irritation persists: Get medical help.</p> |
| Precautionary statements - storage:    | Store in a well-ventilated place.                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Precautionary statements - disposal:   | Dispose of contents/container in accordance with local/regional/national/international regulation.                                                                                                                                                                                                                                                                                                                                                                                                        |

## 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

|                                          |               |
|------------------------------------------|---------------|
| Hazards not otherwise classified (HNOC): | Not available |
|------------------------------------------|---------------|

## 2.4 Other information

|                |               |
|----------------|---------------|
| Other hazards: | Not available |
|----------------|---------------|

## Section 3: Composition/information on ingredients

---

### 3.1 Substances

|                   |                                  |
|-------------------|----------------------------------|
| Chemical name:    | DMSO                             |
| CAS number:       | 67-68-5                          |
| Molecular weight: | Not applicable                   |
| Formula:          | C <sub>2</sub> H <sub>6</sub> OS |

## Section 4: First aid measures

---

### 4.1 First-aid measures

|                                     |                                                                                                                                        |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| General advice:                     | If symptoms occur, seek medical advice/attention.                                                                                      |
| Eye contact:                        | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.                                     |
| Skin contact:                       | Rinse cautiously with water for several minutes. Consult a physician if necessary.                                                     |
| Inhalation:                         | Not expected to be an inhalation hazard under anticipated conditions of normal use of this material. Consult a physician if necessary. |
| Ingestion:                          | Not expected to present a significant ingestion hazard under anticipated conditions of normal use. Consult a physician if necessary.   |
| Self-protection of the first aider: | Use personal protective equipment.                                                                                                     |

### 4.2 Most important symptoms and effects, both acute and delayed

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

Note to physicians:

Treat symptomatically.

## Section 5: Firefighting measures

---

### 5.1 Suitable extinguishing media

Suitable extinguishing media:

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media:

No information available.

### 5.2 Specific hazards arising from the chemical

Specific hazards arising from the chemical:

No information available.

Hazardous combustion products:

No information available.

### 5.3 Explosion data

Sensitivity to mechanical impact:

No information available.

Sensitivity to static discharge:

No information available.

### 5.4 Protective equipment and precautions for firefighters

Protective equipment and precautions for firefighters:

Standard procedure for chemical fires.

## Section 6: Accidental release measures

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

Personal precautions:

Use appropriate personal protective equipment. Ensure adequate ventilation.

### 6.2 Environmental precautions

Environmental precautions:

Avoid discharge into drains and waterways whenever possible.

### 6.3 Methods and material for containment and cleaning up

Methods for containment:

Prevent further leakage or spillage if safe to do so.

Methods for cleaning up:

Take up mechanically, placing in appropriate containers for disposal.

## Section 7: Handling and storage

---

### 7.1 Precautions for safe handling

Advice on safe handling:

Use personal protective equipment as required. No special handling advices are necessary.

### 7.2 Conditions for safe storage, including any incompatibilities

Storage conditions:

Keep the container tightly closed in a dry and well-ventilated place.  
Keep out of the reach of children. Keep in properly labeled containers.  
May form explosive peroxides. Store under inert gas. Hygroscopic.  
Recommended storage temperature is < -15 °C.

Incompatible materials:

No information available.

## Section 8: Exposure controls/personal protection

---

### 8.1 Control parameters

Exposure guidelines:

No information available.

## 8.2 Appropriate engineering controls

Engineering controls: Ensure adequate ventilation, especially in confined areas.

## 8.3 Individual protection measures, such as personal protective equipment

Eye/face protection: Tight sealing safety goggles.

Skin and body protection: Wear protective gloves and clothing.

Respiratory protection: In case of insufficient ventilation wear suitable respiratory equipment.

General hygiene considerations: When using, do not eat, drink or smoke. Wash hands thoroughly after handling. Keep away from food, drink, and animal feeding stuffs.

## Section 9: Physical and chemical properties

---

|                               |                                                          |
|-------------------------------|----------------------------------------------------------|
| Physical state:               | Liquid                                                   |
| Solubility in water:          | High                                                     |
| Appearance:                   | No information available.                                |
| Odor/odor threshold:          | Odorless                                                 |
| pH:                           | 8.5 (50/50 in water)                                     |
| Melting point/freezing point: | 18 °C (64 °F)                                            |
| Boiling point:                | 189 °C (372 °F)                                          |
| Flashpoint:                   | 89 °C (192 °F) Closed Cup, 95 °C (203 °F) Open Cup       |
| Liquid density:               | 1.1 g/mL                                                 |
| Evaporation rate:             | No information available.                                |
| Upper flammability limit:     | 28.5% (V)                                                |
| Lower flammability limit:     | 3.0% - 3.5% (V)                                          |
| Vapor pressure:               | 0.55 mbar (0.46 mmHg) at 20 °C (68 °F)                   |
| Vapor density:                | 2.70 - (Air = 1.0)                                       |
| Specific gravity:             | 1.1 at 20 °C (68 °F) (water = 1)                         |
| Water solubility:             | Completely miscible                                      |
| Solubility in other solvents: | No information available.                                |
| Partition coefficient:        | -2.03 (log Pow)                                          |
| Autoignition temperature:     | 300 - 302 °C (572 - 576 °F) at 1,013 hPa                 |
| Decomposition temperature:    | >190 °C (>374 °F)                                        |
| Viscosity:                    | 2.0 mPas or cP at 25 °C (77 °F)                          |
| Explosive properties:         | Product does not present an explosion hazard.            |
| Oxidizing properties:         | The substance or mixture is not classified as oxidizing. |

## Section 10: Stability and reactivity

---

|                                     |                                                                                                                  |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Reactivity:                         | Hazardous Polymerization will not occur.                                                                         |
| Chemical stability:                 | The product is chemically stable under standard ambient conditions (room temperature) .                          |
| Possibility of hazardous reactions: | Hazardous reaction has not been reported.                                                                        |
| Hazardous polymerization:           | No information available.                                                                                        |
| Conditions to avoid:                | Avoid heat, flames, and sparks. Prolonged heating above 150°C (302°F) can cause rapid, exothermic decomposition. |

|                                   |                                                                                                                                      |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Incompatible materials:           | Organic and inorganic acid chlorides, strong oxidizing agents, alkali metals, hydrobromic acid, acidic solutions of alkali bromides. |
| Hazardous decomposition products: | Sulfur dioxide, formaldehyde, methyl mercaptan, dimethyl sulfide, dimethyl disulfide, and bis (methylthio) methane.                  |

## Section 11: Toxicological information

---

### 11.1 Information on likely routes of exposure

|               |                                                  |
|---------------|--------------------------------------------------|
| Inhalation:   | No information available.                        |
| Eye contact:  | No information available.                        |
| Skin contact: | Acute dermal toxicity (LD50): 40000 mg/kg [Rat]. |
| Ingestion:    | Acute oral toxicity (LD50): 7920 mg/kg [Mouse].  |

### 11.2 Information on toxicological effects

|           |                           |
|-----------|---------------------------|
| Symptoms: | No information available. |
|-----------|---------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                   |                           |
|-------------------|---------------------------|
| Chronic toxicity: | No information available. |
|-------------------|---------------------------|

### 11.4 Numerical measures of toxicity - product information

|                         |                           |
|-------------------------|---------------------------|
| Unknown acute toxicity: | No information available. |
|-------------------------|---------------------------|

## Section 12: Ecological information

---

|                                |                                                                                                                                            |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Ecotoxicity:                   | Toxicity to fish LC50 – Pimephales promelas (Fathead minnow) – 34,000 mg/L-96h                                                             |
| Persistence and degradability: | Result: 31 % - According to the results of tests of biodegradability this product is not readily biodegradable. (OECD Test Guideline 301D) |
| Bioaccumulation:               | No information available.                                                                                                                  |
| Mobility:                      | No information available.                                                                                                                  |

## Section 13: Disposal consideration

---

|                         |                                                                                                                                                                                 |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal of wastes:     | Disposal should be in accordance with applicable regional, national and local laws and regulations. Do not allow product to reach ground water, water course, or sewage system. |
| Contaminated packaging: | Do not reuse container.                                                                                                                                                         |
| Other information:      | None                                                                                                                                                                            |

## Section 14: Transport information

---

|       |                                |
|-------|--------------------------------|
| DOT:  | Not a DOT controlled material. |
| IMDG: | Not regulated                  |
| IATA: | Not regulated                  |

## Section 15: Regulatory information

---

### 15.1 International Inventories

|                                         |            |
|-----------------------------------------|------------|
| US Toxic Substances Control Act (TSCA): | Listed     |
| Canada (DSL/NDL):                       | Not listed |
| Europe (EINECS/ELINCS/NLP):             | Not listed |
| Australia (AICS):                       | Not listed |

|                      |            |
|----------------------|------------|
| South Korea (KECL):  | Not listed |
| China (IECSC):       | Not listed |
| Japan (ENCS):        | Not listed |
| Phillipines (PICCS): | Not listed |

## 15.2 US Federal Regulations

|                          |                                                                                                                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SARA 313:                | This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313. |
| SARA 311/312 components: | Fire Hazard, Chronic Health Hazard                                                                                                                                                |
| CWA (Clean Water Act):   | No information available.                                                                                                                                                         |

## 15.3 US State Regulations

|                                       |                                                                                                                                          |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| California Proposition 65:            | This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm. |
| Massachusetts-RTK:                    | No components are subject to the Massachusetts Right to Know Act.                                                                        |
| New Jersey-RTK:                       | Dimethyl sulfoxide                                                                                                                       |
| Pennsylvania-RTK:                     | Dimethyl sulfoxide                                                                                                                       |
| U.S. State Right-To-Know Regulations: | No information available.                                                                                                                |

## Section 16: Other information

---

### 16.1 HMIS

|                      |                |
|----------------------|----------------|
| Health hazards:      | Not determined |
| Flammability:        | 2              |
| Reactivity:          | Not determined |
| Personal protection: | Not determined |

### 16.2 NFPA

|                                   |                |
|-----------------------------------|----------------|
| Health hazards:                   | Not determined |
| Flammability:                     | 2              |
| Stability:                        | Not determined |
| Physical and chemical properties: | Not determined |

### 16.3 Further information

This material is sold for research purposes only and is not required to appear on the TSCA inventory. It is not intended for food, drug, household, agricultural or cosmetic use. Its use must be supervised by a technically qualified individual experienced in handling potentially hazardous chemicals. The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. Users should make independent decisions regarding the completeness of the information based on all sources available. AAT Bioquest shall not be held liable for any damage resulting from handling or from contact with the above product.
